영화 “Melody”에서의 한 예 :

Melody : May I have my bag please ? ...My friend Muriel — you know the big one — well, she says that you've been going round telling people that you love me, I don't mind it. (Shrugs) Well, it's just that people laugh at you, don't they ? you know if you have to tell someone, why not tell me ? I'm always the last to know. ...It's nice here, isn't it ?

Daniel : Yeah

Melody : My mom doesn't like me coming here, but I'm not frightened, Are you ?

Daniel : No.

Melody : That gravestone — there. 'Here lies my beloved and beautiful Ella Jane, wife and lifelong friend. Thank you for fifty years of happiness. Laid at rest July seventh, 1893. Henry James Mcdevitt, Gone to join his Ella Jane, September eleventh, 1893.' He only lasted two months after she died

Daniel : He must have loved her very much.

Melody : Fifty years happiness. How long is fifty years ?

Daniel : Er, a hundred and fifty school terms, not including holidays.

Melody : Will you love me that long ? ... I don't think you will.

Daniel : Of course, I've loved you a whole week already, haven't I ?

書 簡 文

Dear Mr. Rhee:

It was a pleasure talking to you at the recent convention of the National Fire Protection Association in San Francisco. Further information on the use of DURAFLEX* polybutylene piping in residential fire sprinkler systems is enclosed. As you can tell from reading this information, the high temperature properties, flexibility (ease of installation), resistance to freeze breakage, and low cost make DURAFLEX polybutylene piping ideally

suited for residential fire sprinklers .

The effectiveness of the polybutylene piped systems has been proven in tests conducted in numerous cities across the country -San Clemente, CA ; Springdale ,AR ; Carmichael , CA ; Cobb County, GA ;and Scottsdale, AZ. In addition, Factory Mutual has also conducted a series of successful tests under a contract to the United States Fire Administration . These tests will form the basis for a specification for plastic pipes in residential fire sprinklers that Factory Mutual will issue shortly, within two months of the issuance of this specification, polybutylene systems will be tested and listed by Factory Mutual , thus making them an NFPA 13D approved system .

We believe that DURAFLEX polybutylene piping will play a major role in reducing the cost of residential fire sprinkler systems and thus in extending their usage . If you wish to have more information on DURAFLEX polybutylene piping, please contact your local Shell Chemical representative as listed on the back of our performance Reports .

Very truly yours ,

A. H. Schroer
